

OH NO! WHAT HAVE WE DONE!!

THE FIRST 24 HOURS WITH YOUR NEW PUPPY

WHERE TO START

**FEELING A TAD
OVERWHELMED! WANT TO
DO IT PERFECT!**

Step 1

Develop a great relationship by offering your puppy little pieces of their diet - kibble or treats. Just small pieces. Sit in a circle & have all family members do it.

Step 2

Start as you mean to go on!!!

Much easier to show your puppy what you want right from the beginning.

Don't want your Wet Muddy Adult dog on the couch - then train your puppy to be on the floor or in their bed (Boundary training) -

Your Choice. Your Rules!

Step 3

If your only interactions with your puppy are exciting and over the top games. Then that is what they learn and how they will behave with you or your family. Reward Calmness!!

Housetraining, puppy biting, chewing, stealing: the list is endless.

So many ways it can go wrong!

Be vigilant, teach what you want them to learn in fun positive ways, learn good management to set them up for success, & don't resort to punishment. It does not teach them what you want and can destroy trust.
