

## First: Pay Attention

Fun, easy games to teach your puppy how to pay attention to you. Before you can ask dogs to do what you want you need their focus. Teaching this should happen as soon as you can.

## Recall or Come to Me

The sooner you create this habit for your puppy the easier it will be to have a dog who comes to you all the time. So many things we can do to increase this habit in your puppy. Game Playing and Reinforcing the right behaviours will encourage this, are easy and all your family can be involved.

## Any Time

Video

*Consultations are an excellent way to get started with your young puppy*

# PUPPY TRAINING

## First Commands

## Be With Me

**The Beginning of leash walking. In order for a dog to walk nicely on leash you need to teach them to pay attention and want to be near you. You also want to teach them to have a positive association to wearing a collar and having the leash attached. All done before walking your puppy**
